

4pcs Outdoor Canopy Tent Leg Weights Anchor Stand Heavy Duty Gazebo Discs Base

RRP: \$94.95

With summer on its way, it's time to get ready for warm-weather fun. If you have a tent, canopy, or gazebo stored away for winter, these canopy and tent weights by Randy & Travis Machinery are a must to keep your outdoor shelter safe from strong summer winds. Crafted from hardcore cement coated with rubber, these weights have a combined weight of 11.2 kilogrammes, ensuring that your tent or canopy will stay on the ground no matter what Mother Nature throws at it.

With their heavy-duty construction, these weights should last for years to come. Done in neutral black, they'll look great no matter what colour your canopy or tent is. Thanks to their waterproof rubber coating, they'll hold up well even during the rainy season. And, that coating also cushions your tent or canopy's frame from scratches and dents. Even better, these tent leg weights work with all kinds of frames and on practically any surface. They're easy to grip and easy to install. Don't wait for summer to arrive to have everything ready for outdoor living. Order yours today.
