

Pants Clothes Coat Hanger Non-slip Magic Space Saver Closet Organizer Rack

RRP: \$34.95

It's tough to find the perfect hanger for pants. Either the hanger material is too smooth and your pants slip off, or it leaves a crease that's hard to iron out. These beautifully constructed beech timber and metal hangers by Randy & Travis Machinery are manufactured specifically for pants, so your favourite pair of jeans, khakis, or dress pants will come off the hanger looking as perfect they did in the store where you bought them.

Organise your wardrobe in style with these natural wood, handcrafted hangers. Smooth enough to avoid splinters yet with enough grip to keep your pants from slipping off, these hangers give your wardrobe a uniform, elegant look. With their streamlined, uber-modern lines, they give your wardrobe's interior a designer look. With their rotating hooks, they're easy to hang. Each hanger accommodates five pairs of pants, so you can store your whole pants collection with only a few hangers. Save space and give your wardrobe a makeover. Order your hangers today!
