

Phone Mount Lock for Motorcycle Bicycle Handlebar

RRP: \$34.95

When you're out for a ride on your motorcycle, you need to find your way to your destination. However, with your smartphone in your pocket, you have to pull over to consult your navigational app. But with this smartphone mount from Randy & Travis Machinery, your smartphone will stay safely in place on your handlebar, allowing you to use all your smartphone's apps, including your map. It's easy to see — and you can even rotate the head or use the included extension arm to make it easier to see.

Instead of worrying about your phone falling out of your pocket, you can depend on this dual-stage locking mount to keep it in place. Its uber-tough lock keeps your phone secure no matter how rough the terrain. It takes up little space and accommodates most standard handlebar sizes: 22 mm, 25 mm, 28 mm, and 32 mm. Crafted from glass-filled nylon and durable stainless steel hardware, this lock should last for years to come. Don't start your summer motorcycle season without this sturdy, dependable phone lock. Order yours today!
