

## Clothes Coat Rack Garment Stand Shelf Wooden Tree Hanger Bag Hat Hook Holder

RRP: \$94.95

The perfect accessory for your home's main entry or rumpus room, this versatile coat rack and stand has a place for everything – even your collectibles.

Pretty enough to display in your living room, this natural bamboo rack by Randy & Travis Machinery features two shelves to hold boots, books, or collectibles, four bars to hang blankets or towels to wipe off muddy boots, and six hooks to hang your hats, umbrellas, and handbags, and a central rod to hang coats, shirts, or sweaters with traditional hangers.

For small spaces, such as flats, condos, and tiny homes, this entryway coat tree is a must-have. It packs a ton of storage space into a tiny footprint. It's not just for entryways, though. It's an ideal accessory for walk-in wardrobes, bedrooms, guest rooms, and laundry rooms. Its neutral colour and minimalist profile work beautifully with practically any style of home décor. Light in weight but sturdy enough to hang and store even heavy items, it's portable enough to move wherever you need extra storage. It's even a fantastic idea for kids' rooms. Instead of using their bedposts to hang their backpacks and coats, this neat, compact clothes tree is a great way to teach them to keep their rooms tidy with little effort.

This coat rack even makes a great holiday gift for anyone who loves an organised home. Get yours today!
