

Motorcycle Motorbike Road 17"-21" Front Wheel Support Chock Transport Stand

RRP: \$164.95

A well-built motorcycle needs the same level of care and maintenance. And our front-wheel chock support stand is the perfect tool when cleaning, repairing and maintaining your motor vehicles. It can also be used to park your motorbike upright with zero loads on the wheel suspension mechanism.

Specially manufactured by Randy & Travis Machinery, this is one of the best front wheel support chocks on the market and is designed for large wheel sizes. The stand is made from the best quality iron available - for durability and support.. The front-wheel chock support is a reliable, strong and durable frame that is well suited for wheel frames ranging from 17 - 21 inches. It is a quality product with premium finish.

The product is extremely lightweight and can be transported anywhere with ease. This wheel chock support will help lengthen the life of your motorcycle suspension and make maintenance a breeze!
