

Digital Food Thermometer BBQ Tool Cooking Meat Kitchen Temperature Magnet

RRP: \$39.95

Prepping for barbeque is fun but food temperature is something you need to continuously gauge to get that perfect meat tenderness, right? So, please allow us to introduce you to this super-functional Digital Food Thermometer BBQ Tool from Randy & Travis Machinery!

Specially manufactured with food-grade stainless steel, this Digital Food Thermometer measures the food temperature with utmost accuracy and precision! But it's not just limited to BBQ. You can also use this digital thermometer for baking and even when preparing formula milk for infants. Preparing soups, curries, or your favourite pie becomes quite easy when you can monitor the temperature.

This thermometer is designed with a magnet and an ABS casing, for easy hanging on your wall or simply mount on the refrigerator.
