

Smart Mirror Bathroom Vanity LED Lighted Wall Mirror 1000x700mm

RRP: \$574.95

This elegant and stylish mirror from Della Francesca will look fantastic in your bathroom or bedroom but is equally at home in a commercial setting like a hotel room or a hair salon. With mounted dimmable lights, it's bound to create an air of luxury.

Simply press and hold the touchpad in the corner to change the brightness of the lights. Tap the button to toggle the lights on or off. The anti-fog technology means it will not be affected by condensation when you have a steamy shower.

The lighting is situated around the edges, which are made from frosted glass to provide ideal lighting for your makeup routine. It can be installed in a horizontal orientation and must be hardwired so an electrician is recommended for installation.

Features:

- Wall-mounted design for easy installation and space-saving
- Copper-free construction with very high build quality, so it's environmentally friendly
- User-friendly controls for the lights - simply touch the surface to change the dimmable light status. When switched off, it will return to the previous state when switched back on.
- Energy-saving LED bulbs with ~50,000-hour lifespan
- IP44 waterproof certification
- Built-in anti-fog to ensure condensation is not an issue when lights are on
- Versatile for use in domestic or commercial settings

Specifications:

- Orientation: Can be hung horizontally on the wall
- Colour temperature: 6500K for a cool white colour
- Dimensions: 1000 x 700mm

Attributes:
