

Knee Walker Scooter Mobility Alternative Crutches Wheelchair Portable

RRP: \$484.95

Anyone who has needed mobility aids such as crutches knows just how uncomfortable they are and how much effort it takes to get from A to B. The Randy and Travis Machinery Knee Walker Mobility Scooter is an alternative option that can make getting around while injured that much easier. With a solid alloy frame that can take your entire weight and a safe and stable steering and braking system, you can be confident knowing that mobility just got a lot easier. Simply pack your belongings into the included storage bag, adjust the leg rest to the required height and you're ready to go.

Features and specifications:

- Colour: black
- Design allows for quick folding and storage
- Soft ride suspension provides a smooth ride for fewer jolts and bumps
- Comes with a detachable bag for extra storage space
- Made from solid alloy, providing the scooter with strength and durability
