

Car Driveway Curb Ramp Rubber 10,000 Kg Industrial Capacity

RRP: \$224.95

A valuable safety aid for construction workers, homeowners, security personnel, utility workers, agricultural industries and more, the Randy & Travis Machinery Driveway Curb Ramp provides a smooth, slip-resistant surface for vehicles travelling over a channel in a road, a driveway or other access routes. The Curb Ramp is made from durable, weatherproof rubber and can be safely crossed by vehicles weighing up to 1000kg. The ramp incorporates a cable channel on its underside that's great for machine or lighting power cables, hoses or other cables.

The hi-visibility stripes on the ramp ensure it's easily visible to motorists, giving them plenty of time to slow down before crossing it. The ramp is easy to assemble and requires no additional equipment to be used successfully.

Features:

- Smooths out an uneven channel running across a driveway or access road
- Cables can be safely stowed under the ramp in the cable groove
- Straightforward method of slowing drivers down at the same time as increasing comfort
- Reflective for safe night use

Specifications:

- Can take weight up to 10,000kg
- Dimensions: 123 x 41 x 6.5cm; the cable groove measures 5.5 x 3.5cm
- Weight: 21kg
- Material: Rubber
