

2M Wedding Hex Arch Backdrop Flower Display Stand Frame Background

RRP: \$169.95

A versatile special occasion prop generates attention wherever it's used, the Randy & Travis Machinery 2m Iron Hexagon Wedding Props Arch can be used to create stunning displays of flowers, balloons, ribbons, foliage or whatever other decorative materials will complement the party theme. A great backdrop for unforgettable wedding photos, the hexagonal frame can also be adorned to suit birthday parties, stag or hen dos, corporate events or retirement parties.

The sturdy, coated metal construction is weatherproof - perfect for indoor and outdoor use. As it's waterproof, it can be safely used for fresh flowers that may have been kept wet to preserve their freshness. This is a robust frame that won't buckle or tip, even when fully decorated. Once assembled, the frame is free-standing. It's designed to be put up and taken down in minutes, as well as packed up small for easy transport. A great choice for event organisers, wedding planners, caterers and party planners.

Features:

- A versatile display solution for a wide variety of events and occasions
- Sturdy, rust-resistant coated metal construction
- Easy to assemble and disassemble - no specialist equipment required

Specifications:

- Diagonal length: 2m
- Material: Coated iron
