

Grappling Hook 1T Crane Scale Sliding Stainless Steel Lifting Rigging Accessories

RRP: \$34.95

Designed with the needs of heavy industry in mind, the Randy & Travis Machinery 1T Grappling/Slip Hook provides a safe, dependable option for heavy lifting and hanging. Suitable for use indoors or outdoors, this is a hook that's intended for use in agriculture, construction, haulage and related occupations.

The hook is made for rapid release, at the same time as holding the load securely when necessary. As this product is made from 304 stainless steel, it's both extremely strong and unaffected by prolonged contact with moisture. It's also resistant to damage from temperature changes and can easily cope with our tough climate conditions.

Premium build quality and meticulous attention to detail during manufacture results in a hook that's been well-finished and offers a smooth, snag-resistant surface that ensures smooth, reliable performance.

This slip hook has been tested to hold up to 1000kg (a metric tonne).

Features:

- Slip hook design for quick release
- Durable construction from corrosion-resistant 304 stainless steel
- High-grade build quality to ensure smooth, consistent action
- 1000kg load capacity

Specifications:

- Material: Stainless steel
- Packing Dimensions: 5.12cm x 2.44cm x 0.63cm
- Approximate hook weight: 290g
