

## White Brick Wallpaper Vinyl Vintage

RRP: \$54.95

Randy & Travis Machinery White Brick Wallpaper is a high-quality wallpaper that can be pasted onto appropriately prepared plaster, concrete or plasterboard. The vintage brick design provides plenty of retro appeal in kitchens, utility rooms, studies, bedrooms or as a feature wall to provide an attractive accent. White is an extremely versatile colour that works well with any interior palette. If you're looking for a paper that brings a light, airy ambience to an indoor space, this product can work really well. A brick pattern makes this paper easy to match, keeping waste to a minimum.

Due to the pattern on the paper, this can be used over slightly uneven walls or to minimise the visibility of small bumps and dips in a wall's surface. The wallpaper is made from a fabric material that's long-lasting and resistant to water damage. The front face of the paper can be wiped clean if necessary.

### Features:

- Waterproof paper that can be wiped clean
