

2pc Outdoor Solar LED Deck Lights Garden Patio Pathway Stairs Warm White

RRP: \$34.95

Whether you want to illuminate a path or some steps for safety reasons, or simply want to add some outdoor illumination to your yard or garden, Randy & Travis Machinery Outdoor Solar LED Deck Lights (2pc) are an economical and long-lasting option. The lights are charged during the day by the sun, automatically beginning to shine when twilight comes. Powerful LED bulbs emit a considerable amount of light whilst using relatively little energy, which means once these lights are installed, they cost nothing to run.

Perfect for decking, paths, patios, fencing, steps or any other outdoor spot that could do with some added illumination, the lamps can be easily fixed to a nearby flat surface using the included fixings.

Features:

- Environmentally friendly, solar-powered LED lighting
- Lighting panels at the top and bottom of each lamp
- Lamp charges automatically during the day
- Intended for outdoor use, so the lamp is weatherproof
- Fixings are included

Specifications:

- 2 lamps in a pack
