

Modern 12" LED Up Down Wall Light dual Lamp Fixtures Outdoor Dusk to Dawn Sensor

RRP: \$109.95

When you need reliable lighting, either indoors or out, this economical Randy & Travis Machinery LED Up/Down Wall Light is a good option. The lamp is designed to throw beams both upwards and downwards, providing a wide, 360° field of illumination. It features modern, angular styling and a chic, monochrome palette that's contemporary and fresh. The lamp is fully waterproof and weatherproof, including weather-safe electrical connections. As the lamp contains an LED bulb, users can expect more than 50,000 hours of dependable illumination for a very small amount of energy outlay - an LED bulb can use up to 75% less power in comparison to incandescent lighting.

Fixings are included with the lamp, enabling it to be quickly and easily fixed to a wall, fence, door, gate or other flat structure. This lamp incorporates light sensors that enable it to switch on automatically at dusk and switch off at dawn.

Features:

- Mains operated and includes adaptors for safe indoor or outdoor use
- Simultaneous up and down lighting
- Energy efficient, long-lasting (50,000 hours or more) LED bulbs
- Durable, waterproof, aluminium construction
- 360° beam

Specifications:
