

Fish Pond Liner 3 x 4.6m x 0.5mm Garden Pool Membrane Reinforced

RRP: \$169.95

Anyone with a fishpond on their property knows just how important it is to ensure that a fishpond is well maintained and properly lined. A well-lined fishpond will help to prevent water leakage, sunlight damage, corrosion and ageing. The Randy and Travis Machinery Preformed Garden Pool Membrane Reinforced Fishpond Liner is a specialised fishpond liner that can help keep your fishpond looking amazing and keep the maintenance levels to a minimum. It's designed to be strong and hard-wearing so that your fish and water plants have a sturdy and long-lasting liner supporting their environment. It's flexible, pliable and durable, able to be fitted to almost any fishpond or backyard pond. Designed to last up to 50 years, once you install this liner you won't have to worry about your pond again for a long time.
