

7" 18V Li-ion LED Work Light Torch Workshop Flashlights Camping for Makita Battery

RRP: \$84.95

Whether you're a seasoned camper or have recently caught the camping bug, a flashlight will be an essential piece of your toolkit. Besides illuminating your tent in the dark, you can also use it to read maps and signal for help if you end up in trouble. This camping flashlight from Randy & Travis Machinery is designed for ultimate survival in the wilderness. It offers ultra-bright illumination, convenience and versatility, as you can fold it and turn the head to achieve different angles.

Its compact size means you can use it in small spaces and still get the quality light you need. Thanks to its portable design, it can be used both indoor and outdoor. Indoor use includes emergency lighting, reading and navigation during power cuts. Outdoor use includes camping, hiking, expeditions, dog walking and driving away bugs. The ABS materials used in its manufacture are safe and environmentally friendly.
