

## Professional Tyre Inflator with Gauge Air Line Pressure Tester Tyre Pump

RRP: \$129.95

Make flat tyres a thing of the past with Randy & Travis Machinery's tyre inflator with gauge. It's able to inflate tyres up to 160PSI, and comes with a level trigger to ensure the most accurate inflation. It's also perfect for twin-wheel vehicles, as its twin-sided hold-on connector provides easy access to inner and outer tyre valves. Inflation and deflation are easy – simply hold the chuck firmly on the valve, press the lever to inflate or deflate, and then release it to read the tyre pressure. With our high-quality tyre inflator, you'll no longer need to worry about your tyres looking a little worse for wear, and will enjoy a comfortable drive or ride every time.

Our tyre inflator comes with these outstanding features:

- **Quality inflation:** Inflates tyres up to 160 PSI/11 Bar and comes with a 1/4" BSPT air inlet (when connected to an air compressor)
- **Accuracy:** Thanks to its level trigger, you won't need to worry about over or under-inflation
- **Accessibility:** Its twin-sided hold-on connector is designed for twin-wheel tyres
- **Easy operation:** Its simple lever operation makes inflating and deflating tyres super simple
- **Total length:** 75cm
