

Table Tennis Pong Robot Automatic Ball Launcher Training Machine

RRP: \$74.95

Are you a table tennis aficionado? Looking for a user-friendly automatic ball launcher? Wait no more, because Randy & Travis Machinery is providing you with the best Table Tennis ball launcher.

This product consists of three parts: base, exit hole, and spiral gravity disks. And the most striking feature is that this product can launch up to 15 balls in one minute!

So, if you're willing to have a one-on-one game or maybe even play on your own, this is the perfect product for you!

This Table Tennis Automatic Ball Launcher is lightweight and easy to carry. Moreover, the exit hole is designed according to the size of the balls, hence there is no chance of the balls getting blocked. This product can be used by children who are just starting with table tennis and want to practice in different angles and positions. You can easily assemble it and help your child foster his/her inner talent. Moreover, this sport can also serve as a cost-effective and fun way to exercise the body.
