

2 x Wireless Microphone Handheld Cordless Professional Mic Karaoke Receiver

RRP: \$104.95

Whether you need a microphone for casual home singing or professional performances, Randy & Travis Machinery has got you covered with the 2X Wireless Microphone Handheld Cordless Professional Mic Karaoke Receiver. These microphones offer high fidelity and super endurance – meaning you can benefit from top-quality and consistent sound reproduction. Their sensitivity to sound ensures a clear pitch even when holding the mic further away. In addition, both mics have a long-lasting battery life and capacity which guarantees you eight hours of persistent singing time and two hours of full utility charge. The digital power display is a convenient feature – allowing you to check battery life at a glance.

The cordless microphones combine both form and function. The handheld microphone capsules have a weighted feel combined with a solid structure, allowing you to feel confident in your sound equipment. With a 50m long-distance transmission, you don't have to worry about limiting your movement once plugged into your mixer, portable speaker or projector.

The NWC-WMIC-9292 2X Wireless Microphone Handheld Cordless Professional Mic Karaoke Receiver includes:

- Two unidirectional, wireless cardioid microphones
- A transmitter that connects to the receiver automatically
- Lower power consumption for longer usage
- Individual microphone volume controls and digital displays
- Dual filter design to limit interference and feedback and allow for both mics to be used simultaneously
- Fine signal stability that eliminates distortion
