

Guitar Stand 5 Holder Guitar Folding Stand Rack Band Stage Bass Acoustic Guitar

RRP: \$114.95

Are you a music teacher looking to organise your instruments? Or are you a music junkie with too many guitars to handle? Randy & Travis Machinery recommend this 5-holder guitar stand for easy categorisation and maintenance of your instruments. The stand offers a unique, tilted design for both aesthetic and functional purposes. The tilted structure ensures your guitars are stable and secure while also allowing for easy viewing. The sleek, black structure means that it accommodates any decorative space – whether it be in your home, office or store.

The stand itself offers optimal sturdiness and can support the load of up to 5 guitars. Whether you have a mixture of acoustic guitars, bass guitars or electric guitars, the stand is built to support all types. The black neoprene rubber base prevents slippage or scuffing, so you can guarantee your much-loved instruments maintain their condition. The guitars are separated by pegs to avoid them leaning against one another and keep them in standing formation. Accompanied by a durable iron structure, you can rest assured that this guitar-holding stand will withstand the test of time. We understand that, as a musician, you may constantly be hitting the road. That's why the stand is easy to fold into a compact position, ready for transportation.
