

Auto Dolly Car Dolly Wheel Tire 12"x16" Skate 6000lb Repair Slide Set of (4)

RRP: \$484.95

Moving or repairing your non-functioning vehicle has never been simpler with these Auto Car Wheel Dolly Skates. Once you load your vehicle onto these dollies, you can safely move your vehicle quickly and efficiently. These premium vehicle dollies are designed to support loads of up to 6000lbs – making them extremely durable and suitable for most, if not all, vehicle manoeuvres.

Designed with sturdiness in mind, the dollies are constructed using powder-coated, thick diamond plate steel so you can guarantee your money's worth. The dollies are equipped with 4 dual-bearing swivel casters, two of which have breaks to help control vehicle movement. The premium wheels have radial bearing axles that allow for easy one-person pushing. Despite the economical price, this product is factory tested and intended for professional or garage use. Purchase today at Randy & Travis Machinery to get your vehicle repairs on the go.

Features:

- Shielded bearing axles
- Double ball swivel
