

10X Magnifying Glass Desk Light Magnifier LED Lamp Reading Lamp With Base

RRP: \$79.95

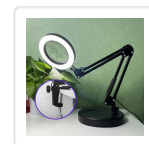

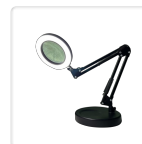

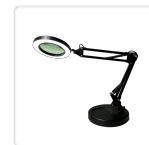

Introducing the remarkable features of our 10X Magnifying Glass Desk Light Magnifier LED Lamp:

- **Versatile 2-in-1 Design:** This table lamp offers a convenient removable base and sturdy metal clips, providing flexibility in usage.
- **Enhanced Visibility with 10X Magnification:** The Magnifier Lamp features a powerful 10X magnification, making it ideal for reading, cross-stitching, knitting, crocheting, beading, and other hobbies. It ensures clear visibility without glare, allowing users to work on their projects with ease.
- **Three Color Modes:** Choose from warm light, natural light, or white light to suit different working environments. Our lights are free of ghosting, emit soft and even illumination, and prioritize eye protection.
- **Stepless Dimming:** With 10 adjustable brightness levels, you can easily fine-tune the lighting intensity between 10% and 100% to achieve the perfect illumination for your specific project. Additionally, there are three optional color temperatures available to meet your diverse lighting needs.
- **Flexible Adjustment:** The lamp head offers a wide range of motion, with a 220° vertical adjustment and a 360° swivel capability, providing maximum flexibility for directing the light precisely where you need it.
