

Door Chain Lock Anti-Theft Security Guard Bolt Latch

RRP: \$24.95

Introducing the Guard Bolt Latch, a robust security locking mechanism designed to provide enhanced safety for your doors. This innovative device enables controlled door opening, allowing for secure viewing and maintaining peace of mind.

Included in the package are stainless steel screws for easy installation of the door chain lock. You can effortlessly install using a screwdriver or a drill bit on your door. With straightforward installation, you can complete the fixing this within minutes, all on your own.

Experience an added layer of security and privacy for your home with the door chain lock. Its functionality is two-fold: deterring unauthorized entry and preventing children or pets from accessing doors independently.

Embracing a timeless and widely recognized design, the chain door lock combines practicality with classic style. Its versatility makes it suitable for various settings, from apartment doors and hotel entrances to office spaces, bedrooms, storerooms, basements, garages, and many others.

Crafted from durable zinc alloy, this Chain Door Lock serves as a secondary door guard, enhancing security. The solid construction ensures the device's reliability, making it an ideal choice for homes, hotels, and offices alike. The door lock's functionality and elegance make it a valuable addition to any setting.
