

Outdoor Folding Arm Awning Retractable Sunshade Canopy Grey 5.0m x 2.5m

RRP: \$1,174.95

With summer just around the corner, it's time to start preparing your home to handle scorching heat and the sun's incessant rays. Bariloche's 5.0 m x 2.5m folding arm outdoor retractable awning is just the thing to protect you from the hot summer sun. Since it folds up easily with only the turn of a hand crank when you don't need its protection, you can retract it when you want more sunshine. Wall brackets make for easy installation, yet we do recommend you use a professional installer to make sure the installation is done right.

Designed to last, this awning features a rugged aluminium frame, powder-coated for extra protection. UV-resistant, rust-resistant, fade-resistant and water-resistant, this awning will serve you well for years to come. The shade itself is made from 300-gsm high-quality 100 per cent polyester that stands up to whatever Mother Nature throws at it, while its neutral grey profile adds kerb appeal to your home.

Perfect for home or business, this awning works equally well over windows, over patios, on balconies, or over sliding doors. To get yours before summer's heat makes outdoor dining or entertaining a tough challenge, order yours today!

Features and specifications:
