

4000 PSI 44CM Pressure Washer Surface Cleaner with 2 Extension Wands

RRP: \$189.95

Our Pressure Washer Surface Cleaner is expertly engineered for efficiently cleaning large areas, such as driveways and pathways, providing professional-level results with its 44cm wide coverage and two spinning nozzles. Its innovative splash-free design ensures you stay dry during operation. This versatile cleaner is compatible with most gas-powered pressure washers rated up to 4000 PSI.

Constructed from durable materials including heavy-duty brass, stainless steel, and durable composites, it guarantees long-lasting durability. The cleaner's tough yet flexible bristles protect the work surface and effectively control overspray. It's specifically designed for cleaning expansive surfaces like driveways, decks, as well as vertical surfaces such as brick walls and siding.

For ease of use, it attaches effortlessly to a 1/4-inch quick-connect capable wand, just like a spray nozzle. The package includes two 17"/44cm pressure washer wands and one rounded surface cleaning tool.
