

LED Photo Frame + 2 Blanks Laser Engraving Display Night-light Engraver Picture

RRP: \$49.95

Introducing the LED Wood Photo Frame Decoration Lamp, a marvel of low energy consumption and energy efficiency.

Crafted from composite optical resin, this lamp is both environmentally friendly and non-toxic. With its 3D visualization and unique lighting effects, it creates an amazing optical illusion that serves as a distinctive home decor piece. Versatile in its functionality, it can serve as a decorative, sleep, or table lamp, providing safety as a night light in bedrooms, emitting an environmentally friendly LED light in baby rooms, and adding charm to living rooms with its cute pattern. This lamp is not only a stylish addition to your living space but also a thoughtful gift for family, children, and friends. The package includes the LED frame, two (2) blank transparent acrylic sheets ready for laser engraving (saw cut edges) and a USB Cable, making it a complete and delightful package.

Specifications:

- Acrylic: 198 x 137mm
- Outer frame: 230 x 173mm
