

12 PCs Corrugated Roof Sheets Profile Galvanized Metal Roofing Carport Black

RRP: \$244.95

Ideal for a variety of structures, this set of 12 corrugated roof sheets is well-suited for domestic, agricultural, and industrial buildings.

Constructed from rust-proof galvanized metal, these sheets boast a robust load capacity, making them perfect for a range of roofing and walling applications. Each sheet measures 115 x 45cm and has a thickness of 0.3mm, providing reliable coverage.

Whether used in sheds, workshops, greenhouses, barns, carports, huts, kennels, garages, or other settings, these roof sheets deliver durability and functionality. It's worth noting that when handling this product, wearing gloves is recommended to prevent any risk of finger scratching.

Features:

- Crafted from durable metal, this product exhibits excellent resistance to bending and pressure, ensuring longevity and reliability. The material's shiny surface eliminates the need for additional decoration, and the corrosion layer boasts a lifespan of 10-15 years.
- Each set comprises 12 sheets, with each piece measuring 115 cm * 45 cm and a mere 0.3MM in thickness. Upon assembly, the product covers an area of approximately 6m², providing ample coverage for various applications.
- Metal steel sheets stand out for their ease of installation compared to other materials. This product comes without preset holes, allowing customers to customize hole placement according to their preferences. Once installed, minimal maintenance is required, simplifying the overall upkeep.
- These roof sheets prove to be an ideal choice for replacing or installing on newly constructed carports, greenhouses, kennels, billboards, garages, canopies, or covered walkways. Their versatility makes them suitable for a range of applications, ensuring practical and effective use in diverse settings.
