# 19" 6U Wall Mount Network DVR NVR Data Cabinet Enclosure

RRP: $274.95

Presenting a 19-inch 6U wall mount cabinet enclosure meticulously designed for network closets and educational environments, prioritizing the need for organized and secure equipment storage. This enclosure is equipped with adjustable front and rear vertical rackmount rails, a key-lock front door, and easily removable clip-in side panels. The addition of ventilated front and side panels enhances airflow, contributing to optimal equipment performance.

Internally, the vertical posts feature square holes for the included cage nuts and 6M threaded mounting screws. The wall-mounting process is simplified into a two-step procedure: initially securing the wall mount bracket to the wall with screws and then effortlessly hanging the cabinet from the bracket. Offered in a sleek Black powdercoat microfinish, this cabinet arrives fully assembled, ensuring a quick and hassle-free installation. For those seeking enhanced airflow, a top panel fan port is provided, allowing for an optional airflow upgrade.
