

## 15m x 2m Black Fence Windscreen Privacy Screen Shade Cover Fabric Mesh Garden

RRP: \$104.95

Constructed from top-tier polyethylene fabric, the black fence privacy screen shade cover for gardens boasts durability, practicality, and waterproof properties. Ideal for a variety of settings such as construction sites, scenic spots, gardens, backyards, schoolyards, tennis courts, poultry enclosures, commercial spaces, and residential areas.

This privacy screen not only ensures durability but also offers enhanced practicality with a water-resistant design. It is perfect for creating a private environment while allowing maximum air passage. The hemmed edges, wider flat filament, and finer open meshes contribute to its robust construction. The double-stitched seams provide extra strength to the sides, ensuring longevity and resilience.

For added reinforcement, the screen is equipped with black cable ties and copper grommets on all four sides. This thoughtful design enhances stability and ensures a secure installation. Whether used in a garden, construction site, or any other application, this privacy screen shade cover mesh combines functionality with quality for an effective and reliable solution.
