

Cervical Ergonomic Pillow Soy Bean Contour Orthopedic Bed Neck Pain Washable

RRP: \$59.95

Introducing the Cervical Ergonomic Pillow, a groundbreaking solution meticulously crafted to revolutionize your sleep experience and deliver unparalleled comfort and support. This memory foam contour pillow is specifically designed to combat neck pain and ensure a tranquil night's sleep.

Tailored to deliver exceptional comfort for your head and neck, it guarantees a rejuvenating night's sleep. Its ergonomic design precisely supports the head and neck, elevating sleep quality and overall comfort. Promoting proper spinal alignment, the pillow alleviates discomfort and reduces pressure points during sleep. The plush pillow core maintains its comfortable feel over time, ensuring enduring comfort.

Crafted from breathable, hypoallergenic materials that facilitate airflow and regulate temperature, it creates a cozy sleep environment. With the convenience of being machine washable, the pillow is easily maintained for a consistently fresh feel. Its versatile design is suitable for various sleeping positions, accommodating diverse sleep preferences. The removable and washable cover streamlines cleaning, ensuring hygiene. Filled with a scientifically balanced combination of 20% soybean fiber and 80% polyester fiber, the pillow guarantees durability and comfort. Crafted without the use of chemicals, it provides a safe and healthy sleeping experience.

This Cervical Ergonomic Pillow is not just a pillow; it's an ideal gift for family and friends, promoting their comfort and well-being during sleep.

Whether seeking relief from neck pain or aiming to elevate your sleep experience, our Cervical Ergonomic Pillow is the perfect solution. It transcends being just a pillow; it's a gift of comfort and wellness for you and your loved ones. Bid farewell to sleepless nights and embrace the soothing support of our memory foam contour pillow. Your journey to better sleep starts right here!

- **Weight:** 1.2kg
- **Care Instructions:** Easy care, machine wash

*Note: Cervical Pain Relief Pillows are designed at the perfect height for correct posture. Adjusting from a fluffy high pillow may take time to get used to. After airing, your pillow should measure 7-9cm in height for the

cervical support, and 5-6cm in height for the head rest. This ensures optimal posture while you sleep. Before use, take the pillow out of its packaging, fluff it out, and then allow it to air flat for 24-48 hours.
