

Chicken Feeder Water Food Treadle Poultry Feeding 12KG Large Capacity 11L

RRP: \$104.95

Crafted from recyclable and non-toxic PP plastic, our set combines durability, sanitation, and eco-friendliness. Bid farewell to messy clean-ups and prioritize the well-being of your flock. The high-quality components guarantee your feathered companions are consistently nourished and hydrated.

The Automatic Chicken Waterer boasts four waterers, enabling simultaneous hydration for four chickens. Our innovative nipple waterers prevent the intrusion of sand and dirt, saving both time and water. The three-port chicken feeder ensures dry and waste-free feeding, each port equipped with a lid to deter rodents and maintain hygiene.

With generous capacities of 11L of water and 12kg of feed, these accessories cater to the needs of up to 30 chicks and 20 adult chickens, providing a sustainable and efficient solution for poultry care.

Features and specifications:

- This waterer accommodates four chickens to drink simultaneously, optimizing efficiency, conserving water, and maintaining cleanliness for an extended period.
- Accommodating three chickens concurrently, it ensures dry food, minimizes waste, and acts as a deterrent against rodents.
- The product comprises a feeding bucket with three ports and four cups, providing a capacity of 11L of water and 12 kg of feed, promoting less frequent refilling.
- Made from PP plastic, non-toxic, and BPA-free
- Water Feeding Capacity: 11 L
- Food Feeding Capacity: 12 kg
- Included Components: 4 Chicken water cups
- Material: Plastic
- Packaging Size: 25.5 x 35 x 24cm
