

## Chicken Bird Feeder Water Dispenser Automatic Waterer Poultry Food Drinker 4L

RRP: \$119.95

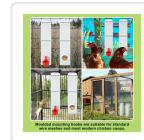

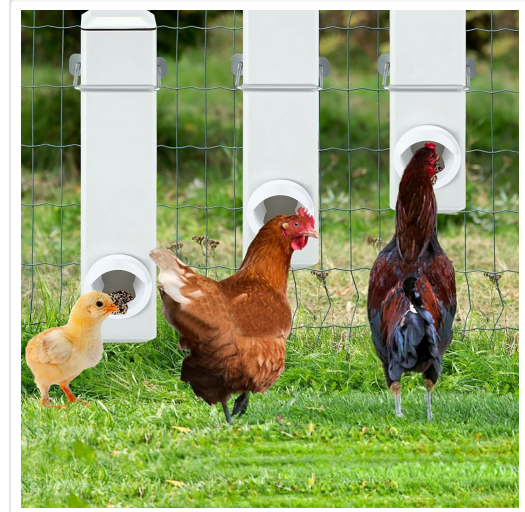

Ensure the health and well-being of your poultry, whether in your backyard or on the farm, with this comprehensive chicken feeder and water dispenser set. The kit includes a 4L waterproof feeder and a 4L drinker, both constructed from high-quality plastic for strength, durability, and corrosion resistance.

One notable advantage is the automatic flow of feed into the bay, minimizing spillage, spoilage, and losses from pests and birds. The waterer, featuring a valve-operated drinking cup, ensures easy access to clean water and stops filling automatically when the cup is full. Our feeder set not only reduces pollution and wastage but also mitigates the risk of diseases and injuries.

With features such as smooth edges, ergonomic handles, and mounting hooks, the chicken feeder and drinker kit can be conveniently installed at any desired height. Compatible with most chicken coops and wire mesh enclosures, this set can efficiently feed up to six chickens with various feed types.

### Features and specifications:

- Features a 4L rain-proof chicken feeder and a 4L innovative chicken drinker, catering to both feeding and drinking requirements simultaneously. The feeder facilitates automatic flow of feed into the bay, minimizing spillage, spoilage, and theft by pests and other birds. With a valve-operated cup, the drinker ensures access to clean water while reducing wastage. Additionally, it automatically halts water flow when the drinking cup is full, optimizing efficiency.
- As the contents near depletion, gravity causes the pet food and water to gradually exit the container tubes.
- Made from premium plastic, the feeder and waterer set exhibits robust durability and exceptional resistance to corrosion, ensuring resilience against harsh environmental conditions within the chicken coop.
- The product's design minimizes food and water contamination within the chicken coop, preventing the flock from trampling and contaminating these essential resources. This proactive approach helps avert diseases stemming from the ingestion of pollutants.
- With sleek, rounded edges and an ergonomic, easy-grip handle, this product also includes molded mounting hooks, designed to seamlessly attach to standard wire meshes and the majority of contemporary chicken coops.
- Ideal for a variety of feed types, such as pellets and general feed mixes, the feeder and waterer set is designed to accommodate and nourish a flock of four to six chickens.
- Material: PVC tube
- Feeder Size: approximately 9.5 x 9.5 x 40cm
- Waterer Size: approximately 9.5 x 9.5 x 40cm
