

2X Blockout Curtains Blackout Window Curtain Draperies Pair Eyelet for Bedroom 132*213cm Cream

Out of Stock: \$99.95

Crafted from ultra-soft, smooth, silky, velvety fabric, these curtains offer a luxurious hand-feel thanks to their triple-woven inner structure. They boast a magic blackout feature that can effectively block out 80%-99% of sunlight (from light to dark colours), providing reliable protection against 100% UV rays.

Not only do these curtains offer blackout capabilities, but they also excel in insulation, keeping warm air in during winter and maintaining a cool environment in summer. This exceptional insulation leads to significant energy savings on home heating and cooling costs.

Furthermore, these curtains are thermal insulated, noise-reducing, and privacy-protecting, creating a peaceful sleeping environment and enhancing family time. They are an excellent choice for various spaces including bedrooms, living rooms, patio doors, sliding doors, room dividers, TV rooms, and any other windows requiring coverage.

For added convenience, these curtains are machine washable in cold water. When needed, use only non-chlorine bleach, tumble dry on low, and warm iron as necessary to maintain their pristine appearance and functionality.
