

9U Wall Mount Network Server Rack Cabinet Enclosure

Out of Stock: \$444.95

Discover the Space-Saving Wall Mount Network Cabinet, designed to optimize your space in retail locations, classrooms, back offices, and more where space is at a premium. With a maximum depth of 39cm, it efficiently utilizes available space.

Enjoy Fast Heat Dissipation with strategically placed vents and heat sink holes in the top, bottom, and rear panels, ensuring optimal airflow to prevent IT equipment from overheating.

Built for durability, the server cabinet features a robust welded frame construction, supporting up to 45kg when wall-mounted and 90kg when ground-mounted. This allows you to securely house multiple devices as needed.

Security is paramount with a locked glass door that safeguards data and equipment, making it ideal for public settings like offices.

Experience Hassle-Free Installation with fully adjustable square-hole mounting rails for easy device installation, complemented by convenient wiring holes on the top, bottom, and rear panels for seamless cable routing.

Elevate your IT infrastructure with our Wall Mount Network Cabinet – the perfect blend of space efficiency, durability, security, and ease of installation.
